Key Features - At A Glance

Distributed in the UK & NI by YCR Distribution Ltd. 01924 438238. Whilst every effort has been made to provide current photographs, descriptions and specifications the manufacturers reserve the right to change specifications, illustrations, model number and appearance of any item without prior notifications and therefore will not be held responsible for any variations.

SAM4S NR-500

Thermal ECR Series

Choose a single printer or traditional receipt & journal model. Both provide fast, quiet thermal printing.

Operator Display

The NR-500 series benefits from an 8 line blue backlit, graphic Liquid Crystal Display providing operator friendly transaction information. The display also provides menu driven programming information for product file maintenance.

Customer Display

Transaction information is shown on a customer facing 2 line x 16 character LCD. The display can rotate to face the customer at any angle.

Table Management & Overlapping Cashiers

Provides itemised bills for restaurant tables at the end of the meal. Several cashiers can run simultaneous transactions using the Interrupt & Overlap feature.

Secure SD Port

SD Card Utilities include program Save/Load, report capture, firmware updates & graphics uploading.

- Training Mode.
- Cancel Sale Function.
- Mode Lock Controlled Transaction Void.
- Clerk Name Display.
- Price Inclusive Barcodes.
- Post Tendering.
- 4 Automatic Currency Conversion Keys.

NR-510R (Raised Keyboard)

Ideal for all kinds of retail operations, with or without bar code scanning. This model has a retail style keyboard with 48 raised buttons, 36 of which are programmable to provide user friendly, efficient operation.

A single station thermal will serve as either customer receipt or printed audit roll. If used as customer receipt an electronic journal can provide a printed record of each transaction if required. End of day management reports can also be printed.

The printer can even be turned off & if a customer asks for a receipt after the transaction has been completed a receipt can still be printed.

NR-520R (Raised Keyboard & 2 Printers)

Ideal for all kinds of retail operations just like the NR-510R but with receipt & journal printers. This is vital where a customer receipt is issued with every transaction & a real-time printed audit roll is required.

Providing a receipt with every transaction helps to ensure correct information is entered into the cash register & provides proof of purchase.

NR-510F (Flat Keyboard)

Ideal for all kinds of hospitality operations. Special features provide for everything from fast food outlets to café, restaurant, fine dining, bars, & night clubs.

This model has the same printing options as the NR-510R but with a splash-proof, flat keyboard with 76 programmable PLU & function keys. In addition to the print options on the NR-510R the printer can be used for printing restaurant table bills at the end of the meal.

Communication Interfaces

3 x Serial Ports & 1 x Type A USB Port provide connection to various devices including: Kitchen Printer, Bar Code Scanner, Computer, Scales. Remote Pole Display.

HIGH PERFORMANCE - LOW COST CASH REGISTERS

- 8 Line Blue Backlit, Graphic Liquid Crystal Display.

- 3 x Serial Ports & 1 x Type A USB Port.

- Single & Twin Station Thermal Printers.

- 2 x Lines x 16 Character Rear Customer Display.

Espresso

New Espresso PC Utility Now Available.
